“ I knew Richard he was Uncle dick to me we used to go up to the farm all the time which had been purchased around the time I was born he used to always take me around the farm on the farm equipment from a young age riding on the Ford 8N to the big cat 955k dozer and later on a Ford 5000 and a John Deere JD 350 B. some of the best moments of my life were spent up there at the farm with him. we used to ride around the farm in the farm truck he always had a pack of mini donuts on the front seat usually chocolate or powdered of course he always invited me to have some. When I was learning welding in school he and I did welds side by side I managed to do a better one he as an expert welder and me as a student learning it. I looked forward to seeing him every time I went up there and was so disappointed that I haven't been able to visit him in the past 5 years and now it's too late I will always and forever miss him I never stop thinking about him.
