“ I am so sorry to hear about this. I became very close to Tony over the many years of becoming friends with his sister. I used to go over to their house and play with her. I was a little older then her, but that never stopped me from being like a big sister to her. Tony would often message me and thank me for the time I was with his sister and even the times I would talk to him. I became someone they could trust and ask for advice from. Tony adored the way I treated those around me because I was so generous until I was crossed the wrong way. Tony messaged me not that long ago and was asking about getting together with the family and just hanging out. It's so sad that he is gone. My heart breaks for the family as well as all he had touched through his short life. Tony will never be forgotten. He was a loving friend and never put himself before anyone. Rest in heaven young king. I love you Tony!
